**Employment History**

**RE/MAX**

Senior Web Engineer | Nov 2018-Jan 2024

**Developed** a comprehensive design system and implemented a mono-repo, enhancing efficiency in project development.

**Spearheaded** critical contributions to web architecture and deployments, ensuring seamless project execution.

**Collaborated** closely with the product team, actively participating in decision-making processes to align development with business goals.

**Optimized** SEO page load times, reducing from 2 seconds to 0.5 seconds, and minimized main asset size from 1MB to under 200KB.

**Played** a key role in developer onboarding and provided mentorship, fostering a collaborative and efficient work environment.

**Bham Designs**

Self Employed Contractor | Dec 2015-Nov 2018

**Led** the development of applications and platforms, showcasing expertise in frontend technologies.

**Drove** UX/UI design and branding initiatives, ensuring a cohesive and user-friendly experience.

**Provided** valuable consultation services to startups about web initiatives.

**Agent Publishing**

Print & Web Designer | Jul 2014-Dec 2015

**Executed** meticulous photo retouching, enhancing visual appeal and quality.

**Led** branding and development initiatives, ensuring a consistent and compelling brand image.

**Produced** engaging weekly newsletters.
